

SE/EE/CPR E/CYB E 491 – Fall 2023

PrairieLearn Senior Design Team

Week _ Report

October 2nd - 6th

Faculty Advisors: Phillip Jones

Team Members:

Christopher Costa - *Role not yet assigned*

Matthew Graham - *Role not yet assigned*

William Hudson - Technical Lead

Carter Murawski - Note Taker

Tyler Weberski - Project Manager

Andrew Winters - *Role not yet assigned*

Summary for Progress this Week

- Created more questions and a course to work in.
- Completed the project plan assignment
- Completed the second lightning talk
- Set additional weekly meeting times
- Assigned three basic roles

Past Week Accomplishments

- Set additional weekly meeting times
- Resolved Git issue
- Got all members set up with the virtual environment
- Gained experience using the PrairieLearn framework

Individual Contributions

Team Member	Contribution	Weekly Hours	Total Hours
Christopher Costa	Created questions based off the course material, read/learned course material. Got connected with git.	5	10
Matthew Graham	Created additional questions. Completed assignments for class. Looked into what direction we want to take the project.	5	10
Mitch Hudson	Created additional questions, and helped with the project plan assignment. Helped record the presentation for the submission as well.	5	12
Carter Murawski	Created questions in PL, mapped what material 288 covers, finished project planning assignment, planned project milestones.	5	10
Tyler Weberski	Continued adding questions, as well as help complete Project Plan assignment. Also recorded audio for Project Plan lightning talk.	5	10

Andrew Winters	Worked on project plan assignment, and the lightning talk slides, and recorded the presentation for submission	5	10
----------------	--	---	----

Comments and Extended Discussion

The only current extended discussion is which direction we want to see the project go. This will become more clear as time moves on.

Plans for Coming Week

- Continue working on getting familiar with the PrairieLearn framework
- Continue brainstorming potential questions to develop
- Continue planning the path we want to take the project

Summary of Weekly Advisor Meeting

After this past weekly advisor meeting, our advisor meeting was able to share with us a few resources for emulators as well as the CPR E 288 course material. HE also asked us to define the three preliminary roles listed above. We decided on who should take these roles and will wait to assign further roles as time moves on. We were also asked to prepare a demo for our advisor for the coming week.
